

C/EBP Epsilon Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP01021
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human CEBPE. AA range:191-240
Mol wt	30603
Species reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Recommended application	WB, IHC-p, ELISA
Concentration	1 mg/ml
Full name	C/EBP epsilon Antibody
Synonyms	CEBPE; CCAAT/enhancer-binding protein epsilon; C/EBP epsilon

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The protein encoded by CEBPE is a bZIP transcription factor which can bind as a homodimer to certain DNA regulatory regions. It can also form heterodimers with the related protein CEBP-delta. The encoded protein (CCAAT/enhancer binding protein epsilon) may be essential for terminal differentiation and functional maturation of committed granulocyte progenitor cells. Mutations in this gene have been associated with Specific Granule Deficiency, a rare congenital disorder. Multiple variants of this gene have been described, but the full-length nature of only one has been determined.

Recommended Dilution

WB: 1: 500 - 1: 2000

IHC: 1: 100 - 1: 300

ELISA: 1: 10000

Not yet tested in other applications.
