

c-Myb Polyclonal Antibody

Description

Product type Primary Antibody

Code BT-AP02011

Host Rabbit

Isotype IgG

Size 20ul, 50ul, 100ul

Immunogen The antiserum was produced against synthesized peptide derived from human Myb around the non-

acetylation site of Lys471. AA range:431-480

Mol wt 72341

Species reactivity Human, Mouse

Clonality Polyclonal

Recommended application WB, ELISA

Concentration 1 mg/ml

Full name c-Myb Antibody

Synonyms MYB; Transcriptional activator Myb; Proto-oncogene c-Myb

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

MYB encodes transcriptional activator Myb with three HTH DNA-binding domains that functions as a transcription regulator. This protein plays an essential role in the regulation of hematopoiesis. This gene may be aberrently expressed or rearranged or undergo translocation in leukemias and lymphomas, and is considered to be an oncogene. Alternative splicing results in multiple transcript variants.

Recommended Dilution

WB: 1: 500 - 1: 2000 ELISA: 1: 20000

Not yet tested in other applications.

Images

Western blot analysis of extracts from Jurkat cells, using Myb (Ab-471) Antibody.

Western Blot analysis of Jurkat cells using c-Myb Polyclonal Antibody. Secondary antibody was diluted at 1:20000 cells nucleus.

Storage

-20°C for one year
