

NACAD Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP05770
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human NACAD. AA range:376-425
Mol wt	161117
Species reactivity	Human
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	NACAD Antibody
Synonyms	NACAD; KIAA0363; NAC-alpha domain-containing protein 1

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

May prevent inappropriate targeting of non-secretory polypeptides to the endoplasmic reticulum (ER). May bind to nascent polypeptide chains as they emerge from the ribosome and block their interaction with the signal recognition particle (SRP), which normally targets nascent secretory peptides to the ER. May also reduce the inherent affinity of ribosomes for protein translocation sites in the ER membrane (M sites).

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 10000

Not yet tested in other applications.

Images

Western blot analysis of lysates from Jurkat cells, using NACAD Antibody. The lane on the right is blocked with the synthesized peptide.
