

POT1 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP07334
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human POT1. AA range:247-296
Mol wt	71442
Species reactivity	Human, Monkey
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	POT1 Antibody
Synonyms	POT1; Protection of telomeres protein 1; hPot1; POT1-like telomere end-binding protein

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

POT1 is a member of the telombin family and encodes a nuclear protein involved in telomere maintenance. Specifically, protection of telomeres 1 functions as a member of a multi-protein complex that binds to the TTAGGG repeats of telomeres, regulating telomere length and protecting chromosome ends from illegitimate recombination, catastrophic chromosome instability, and abnormal chromosome segregation. Increased transcriptional expression of POT1 is associated with stomach carcinogenesis and its progression.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 10000

Not yet tested in other applications.
